Aquarians are freedom-loving, independent new-age thinkers. However, they can also be inflexible.

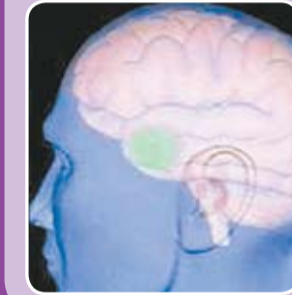

The least personal of the three air signs, Aquarians have an ability to detach easily from people and situations that don't allow for personal growth and evolution.

They approach life from an intellectual viewpoint. Aquarians are true humanitarians and therefore they embrace people from all walks of life.

Friendship is their number one priority and they are loyal in this area.

Some Aquarians do not know how to apply themselves properly in their personal relationships and consequently their partners can feel unloved and unappreciated.

On the work front, Aquarians are able to adapt to most occupations where they can be free.

**GENERAL ELEMENT** Air

**BIRTHSTONE** Turquoise

**AQUARIUS FACTS**

### TRADITIONAL TRAITS

**GOOD:** Independent, clever, funky, pacifist, inventive, communicative, networking.

**BAD:** Stirring, radical, mavericks, goading, sucking-up, unemotional, needy, selfish.

**LIKES:** Humanity, experimentation, causes, making friends, being the centre of attention, having fun.

**DISLIKES:** Duty, convention, excessive loneliness, the ordinary, limitations, obligation.

### PHYSICAL ATTRIBUTES

Aquarians stand out in a crowd. In fact, many have a slightly Nordic look with pleasant, crisp, angular features. With a broad brow, prominent jaw and nose, plenty have extremely blue eyes. They are often tall and loose-limbed.

## RELATIONSHIPS

The Water Bearer will be won over by someone who mentally challenges them and shares their ideals for a better world. In relationships, they are visionary, caring and giving lovers who seek intuitive partners. Aquarians can be flirtatious charmers, but they love and appreciate the comforts provided by a partnership in love. However, they are also often astounded at how much work a relationship involves.

## THE PERFECT MATCH

The Aquarian will often look for a partner of a certain ilk – someone who they might consider to be a "catch". Their partner will usually be someone who can nurse and nurture their own expectations of their greatness.

However, they can unexpectedly be extremely grandiose when it comes to displays of affection. Many have trouble finding a soulmate.

## FRIENDSHIP

This sign enjoys making friends, although much of them have to do with being seen with the "right" person. They have a wide circle of friends, although some of these have to do with being "connected". Some of their friends come under the title of "asset".

## COMPATIBILITY

Aquarians and Aries might seem a perfect match – they excite each other on all levels. Gemini is also one of the best love matches and these signs "click". Air sign Libra is

another match made in heaven, while Scorpio, Sagittarius and Aquarius partners can make a go of it given the right circumstances.

## FASHION

This sign has a habit of getting stuck in a style they wore 20 years ago. Many, however, aim to look as traditional as possible to avoid standing out. Others are so radical they do not see fashion as a form of self-expression.

## CAREER

Aquarians like the idea of being the "ideas" person and can come up with some pretty interesting plans, yet when it comes to actually planning, they can be lazy. They resent routine and are dreadful procrastinators.

## YEAR OF THE RABBIT

FOURTH in the cycle of the Chinese Zodiac, the rabbit is one of the most delicate animals among all 12 animals.

People born in the year of the rabbit have grace, culture and beautiful manners and make ideal diplomats or politicians.

Rabbit people get on well with everyone, but are reserved creatures at heart, and are only really happy when they are engrossed in some sort of scholarly or intellectual activity.

A person born in the year of the rabbit often leads a conservative lifestyle, where one of the most important things is their security. This quality has a negative side also. Opting for safety over risk, they may miss good opportunities. They can be great partners in relationships. Romantic and sweet, faithful too, rabbit people never lack for suitors.

### THE RABBIT YEAR FOR AQUARIANS

2011 is the year of the metal white rabbit – a time of internal change for Aquarians. This is your chance to find a new path for development. For those ready to embrace change, incredible prospects await – you will be able to see projects through and gain new knowledge.

I always say don't make plans, make options.
