Aries, a fire sign, is the child of the Zodiac.

Arian personalities are motivated by goals and challenges. They are great initiators but have a strong tendency to get bored easily.

Consequently, they don't always achieve their desired goals.

Ruled by the planet Mars, Arians are independent, forthright and idealistic individuals.

They are inclined to jump quickly into relationships. A result of this is that they can eventually become bored and want to move on.

In work areas, Arians are suited to goal-orientated careers and positions where they can display their strong vitality and/or physical strength.

Arians, who are not particularly happy when directed, need to be the masters of their own ships.

**GENERAL ELEMENT** Fire  
**PLANET** Mars  
**SYMBOL** The Ram  
**BIRTHSTONE** Diamond

### TRADITIONAL TRAITS

**GOOD:** Self-deprecating, idealistic, pioneering, forward-looking, energetic, enthusiastic.  
**BAD:** Selfish, pushy, foul-tempered, abrupt, headstrong, argumentative, egomaniacs.  
**LIKES:** Being first, being in charge, directness, honesty, flattery, helping the underdog.  
**DISLIKES:** Pretentiousness, lying, authority, looking foolish, admitting failure, inefficiency.

### PHYSICAL ATTRIBUTES

The Ram has good facial features and structure. They are often proud looking with a prominent nose. Although their bodies are quite strong and muscular, they manage to move with fluency and grace.

## RELATIONSHIPS

As an extremely direct sign, the Ram likes to initiate relationships. They do demand obedience but in return are unlikely to cheat on a partner to whom they are extremely protective. They make passionate lovers.

## THE PERFECT MATCH

A known seducer, the Ram likes a partner who matches them one for one. Aries has a great sense of adventure and can be flirtatious, but needs someone who will stimulate them.

## FRIENDSHIP

Aries can make a candid, enthusiastic and generous friend. This popular sign needs a variety of intensely loyal friends. First

impressions count and they like to think they are someone's most important friend. They can be competitive when in big groups and also somewhat selfish and mean.

## COMPATIBILITY

One of the best matches for Aries is Sagittarius. This pair inspires each other to high levels of accomplishment. Although compatible with Leo, with two super-egos like these, there can be friction. A match with Capricorn may also work as these two signs are ambitious.

## SPIRITUALITY

Aries can be veer spiritual although they are unlikely to admit this. They don't believe in sitting around analysing things, nor are they into New Age theories. They are true to themselves.

## CAREER

The Ram excels best when self-employed because they are not great "people persons". They work well under deadline and are good troubleshooters. Aries likes a challenge.

## FASHION

This sign is not big on fashion, especially since they dislike being told what to do – or wear. They can be vain and when it comes to style, and believe they were doing it first anyway.

## MONEY

Aries like all things new and are not bargain hunters. Their journey to achieve success is more important than the financial rewards they receive when they arrive.

## 2011 THE YEAR AHEAD

IT LOOKS like your hard work in the past will be rewarded handsomely this year.

Recognition in the right circles will help your career and being seen in the right places will also assist you.

This could be the best year of your life for a long time and what is likely to come your way could take you by surprise.

A VIP could be helpful in career affairs and lovers more affectionate. Do not try and force issues with loved ones. Consider your partners feelings.

Keep a close watch on your valuables as a loss or theft could occur. If you take life as it come's you'll make progress. Don't mope around but think positive.

Your finances should take a turn for the better later in the year. However, keep the spending urges under control and do not lend money.

year as there is going to be some stiff competition. Be mindful of your partner's and or family's feelings as you could upset those that mean the most to you.

The love life is showing ups and downs. Money seems to be the main focus for this year ahead.

However being the Arian that you are you will need to make sure you also look after your health. Make sure you take those weekend breaks if nothing else.

## YEAR OF THE RABBIT

FOURTH in the cycle of the Chinese Zodiac, the rabbit is one of the most delicate animals among all 12 animals.

People born in the year of the rabbit have grace, culture and beautiful manners and make ideal diplomats or politicians.

Rabbit people get on well with everyone, but are reserved creatures at heart, and are happy when they are engaged in scholarly activity.

A person born in the year of rabbit often tends to lead a conservative lifestyle, where security is vital. This quality has a negative side. Romantic and sweet, faithful too, rabbit people never lack suitors.

### THE RABBIT YEAR FOR ARIANS

The year of the white metal rabbit will see Aries achieve positive results within a short time but they need to tell themselves the time of confusion and disorder is behind. Only then will their life begin to change for the better. The planetary alignment for this year will benefit a well-planned business. This is a period when it is necessary for Aries to adhere strictly to plans.
