Capricorns are generally the most successful of all the Zodiac signs when it comes to goals and achievements.

Their driving force is an incredible ambition. They are the typical mountain goat, they are pragmatic and take responsibility seriously.

They also need structure in their lives and can sometimes be inflexible. Ruled by the planet Saturn, Capricorns have tenacity and staying power to achieve what they want. Reputation and power is important and they need to associate with people who can elevate or enable them to move ahead.

Capricorns are family orientated. In relationships, they are loyal and rarely leave a partner due to their deep sense of commitment and family values.

CAPRICORN FACTS

TRADITIONAL TRAITS

GOOD: Practical, grounded, ambitious, hard-working, steady, contained, capable.

BAD: Self-interested, unfeeling, superior, pessimistic, miserly, age-obsessed, social-climbing.

LIKES: Structure, being the boss, professionalism, using people, money, success.

DISLIKES: Failure, ridicule, rudeness, wild schemes, dead-end jobs, weakness.

PHYSICAL ATTRIBUTES

Capricorns often look younger as they get older and much to the jealousy of others, age beautifully. Featuring a high forehead and structured face, they also have a beautiful smile and good posture.

RELATIONSHIPS

When in love, Capricorns are more devoted than they are emotive. They are turned on by power – their partner must be powerful in the boardroom and the bedroom. The Goat is willing to carefully construct a happy romance for someone special and relationships are likely to be full of glitz and glamour. They are kind and grateful if the right buttons are pushed.

THE PERFECT MATCH

Capricorns are often attracted to their total opposite in personality. Their calm, non-excitable nature means they are slow to anger but can also leave their partner feeling in an emotional void. Yet their down-to-earth nature can act as solid ground for a more flighty sign.

FRIENDSHIP

Goats dream of having many friends, yet often find they have a hard time holding on to them, which may have something to do with the Goat's motto 'I Use'. Their suspicious nature means they take their time observing people before committing to a friendship. They can be stand-offish with people they do not know.

SPIRITUALITY

The Capricorn star sign has two sides – the good and the ugly. There is a duality in their personality which can see their awesome powers used to perform good deeds or vile ones. Soul choices are not paramount to the Goat but rather they look for a love that reflects their need for status and security.

COMPATIBILITY

Taurus mates can be a most successful union for Capricorn. This pair produces the absolute best in each other. Virgos are also a good match. Geminis are compatible with the Goat. Scorpios and Capricorns are drawn to each other and a Goat/Goat relationship can lead to a lifetime of ambitious scheming.

CAREER

Their fear of failure keeps them driving hard in pursuit of glory. Suited to most professions that have to do with maths or money, when they set their minds to something they usually achieve it. They are experts in office politics and manipulation but work within the system, not outside it, to gain their desires.

YEAR OF THE RABBIT

FOURTH in the cycle of the Chinese Zodiac, the rabbit is one of the most delicate animals among all 12 animals.

People born in the year of the rabbit have grace, culture and beautiful manners and make ideal diplomats or politicians.

Rabbit people get on well with everyone, but are reserved creatures at heart, and are only really happy when they are engrossed in some sort of scholarly or intellectual activity.

A person born in the year of rabbit often leads a conservative lifestyle, where one of the most important things is their security. This quality has a negative side also. Opting for safety over risk, they may miss good opportunities. They can be great partners in relationships. Romantic and sweet, faithful too, rabbit people never lack for suitors.

THE RABBIT YEAR FOR CAPRICORNS

Unlike some other zodiac signs, Capricorns should have no difficulty in adjusting to new conditions brought by the year of the metal white rabbit. Throughout 2011, their energy and strength will only increase, which will stabilise their emotions and psyche, self-esteem and inspire confidence.
