Geminis are referred to as the butterflies of the Zodiac because they need to flit from one thing to another to experience varied situations.

They are changeable and adaptable. Communication is the No.1 key to this sign.

They are rather flirtatious and may experience many relationships in their lifetime as they have a tendency to become restless and bored easily.

Mercury, messenger of the gods, is their ruling planet, so they tend to thrive in vocations where they can display their mental dexterity.

Being a dual sign they are often referred to as Jack of all trades and master of none. They seem to excel in occupations like teaching, writing and reporting. Being an air sign, they are inclined to react to situations intellectually rather than emotionally.

TRADITIONAL TRAITS

GOOD: Smart, funny, charming, well informed, witty, stamina, multi-tasking, worldly.

BAD: Easily bored, amoral, unemotional, interfering, fickle, hypocritical, delicate, nervous.

LIKES: Gossiping, variety, scandal mongering, being in the know, fads, the unusual.

DISLIKES: Commitment, naivety, cliches, boredom, being intimate.

PHYSICAL ATTRIBUTES

Geminis are known to talk with their hands, which are expressive and a focal point of their bodies. They usually sport clear, small features with an animated expression and a twinkle in their eyes.

RELATIONSHIPS

Geminis are not big on commitment or heart to heart intimacy. They can be unemotional when it comes to romance. To them, love is a game and they do not take anything seriously.

THE PERFECT MATCH

Geminis crave an adoring partner who is self-assured, smart and gives them the space they need. The best way to ensure a Gemini sticks around is by keeping them mentally stimulated.

FRIENDSHIP

These social butterflies are often the life of the party. They bond with many different types of people and enjoy diverse

relationships, although they are not inclined to have deep relationships. They enjoy having many friends but can be fickle, especially if they are not receiving the intellectual stimulation they need.

COMPATIBILITY

Aries can be an inspirational relationship for Gemini, although they can be too controlling. A better match would be with Libra or Aquarius and, with some hard work, Virgo. A match with Capricorn can work if Gemini is ambitious.

SPIRITUALITY

Geminis are fickle, particularly in love. This is not intentional but because of the basic inconsistency of their emotional nature, which houses an amoral side, one part of Gemini

may become deeply involved emotionally, while another part may stand back from a situation, laugh at it and those involved, including themselves and will analyse it intellectually.

CAREER

The Twins' dual personality means they are brilliant at doing more than one job at a time. They are good workers but dislike restriction.

MONEY

Geminis live within their income, but if they do get into debt, they know they are capable of finding a way to make more money.

FASHION

The Gemini may not be into designer labels, but they are certainly into fads.

YEAR OF THE RABBIT

FOURTH in the cycle of the Chinese Zodiac, the rabbit is one of the most delicate animals among all 12 animals.

People born in the year of the rabbit have grace, culture and beautiful manners and make ideal diplomats or politicians.

Rabbit people get on well with everyone, but are reserved creatures at heart and are only really happy when they are engrossed in scholarly or intellectual activity.

A person born in the year of the rabbit often leads a conservative lifestyle, where one of the most important things is their security. This quality has a negative side also. Opting for safety over risk, they may miss good opportunities. They can be great partners in relationships. Romantic and sweet, faithful too, rabbit people never lack for suitors.

THE RABBIT FOR GEMINI

For much of 2011, circumstances will be favourable. Any troubles will be as a result of Gemini fussiness or an inadequate assessment of a situation. The Gemini horoscope for 2011 portends significant changes that may be related to professional life, love issues or relationships.

Age is just a number. It's totally irrelevant unless, of course, you happen to be a bottle of wine.
