The Lions are a proud lot who have a tendency to be arrogant and ruthless.

They are also ambitious and need to be respected and admired.

Leos are incredibly loyal and romantic and because of their faithfulness, they command admiration and respect from their partner.

They embrace the arts and are suited to careers in this area, particularly acting where they can stand out and get to take centre stage.

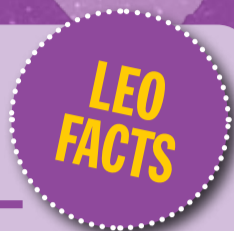

Leos also make excellent teachers because of their ability to inspire others.

As Leo rules the back and heart, people with this star sign can be subjected to problems with these areas.

YOU could be forced to change your mind about a close and personal friend and this could be very unsettling.

Your work is getting to a stage when you should ask for some help do this before March. Someone in authority, who recognises your potential, will be doing battle on your behalf.

You could change address, too, around the middle of the year. Something which has bothered you in the past will now be cleared up and you will have closure by June. It looks like some blocks that have been there to stop you from getting what you want should now be removed and it should be open to go for you.

Good news from far away will also help to make this year a very happy one. Things that might look mighty big in the distance seem to get smaller as you get nearer their happening.

Anticipating problems could bring them on so keep smiling and think positive. You will regret it if you don't spend more time

## YEAR OF THE RABBIT

FOURTH in the cycle of the Chinese Zodiac, the rabbit is one of the most delicate animals among all 12 animals.

People born in the year of the rabbit have grace, culture and beautiful manners and make ideal diplomats or politicians.

Rabbit people get on well with everyone, but are reserved creatures at heart, and are only really happy when they are engrossed in some sort of scholarly or intellectual activity.

Rabbits often lead a conservative lifestyle, where one of the most important things is their security. This quality has a negative side also. Opting for safety over risk, they may miss good opportunities. They can be great partners in relationships. Romantic and sweet, faithful too, rabbit people never lack for suitors.

### THE RABBIT YEAR FOR LEOS

IN the coming year, Leo individuals will have a significant advantage due to an unusually favourable astral situation in the horoscope for the 2011 white metal rabbit year. Anything they would labour on and pursue will become a reality. They will successfully implement projects and deepest desires will come true.

I sometimes think I was born to live up to my name. How could I be anything else but what I am having been named Madonna?
